

# About the Coauthors

**Dr. Roger Bezdek** is an internationally recognized energy analyst, president of MISI, a Washington, DC-based economic, energy, and environmental research firm, co-founder of energy technology firm Cavendish Energy, and Washington editor of *World Oil* magazine. He is the author or coauthor of 13 books and his writing has appeared more than 300 times in scientific and technical journals, including *Science*, *Nature*, *Energy Policy*, *Natural Resources Journal*, and *Public Finance*. He earned a Ph.D. in economics from the University of Illinois at Urbana-Champaign, where he served as a faculty member from 1971 to 1974.

**Dr. Craig D. Idso** is founder and chairman of the Center for the Study of Carbon Dioxide and Global Change. Since 1998, he has been the editor and chief contributor to the online magazine CO<sub>2</sub> Science. He is the author of several books, including *The Many Benefits of Atmospheric CO<sub>2</sub> Enrichment* (2011) and *CO<sub>2</sub>, Global Warming and Coral Reefs* (2009). His writing has appeared in *The Quarterly Review of Biology*, *Energy & Environment*, *Geophysical Research Letters*, *Atmospheric Environment*, *Journal of Climate*, *Technology*, and other science journals. He earned a Ph.D. in geography from Arizona State University (ASU), where he lectured in meteorology and was a faculty researcher in the Office of Climatology.

**Dr. David R. Legates** is associate professor and director of the Center for Climate Research at the University of Delaware. He has taught at Louisiana State University, the University of Oklahoma, and the University of Virginia. He has been Research Scientist at the Southern Regional Climate Center, Chief Research Scientist at the Center for Computational Geosciences, and Visiting Research Scientist at the National Climate Data Center. He earned his Ph.D. in climatology from the University of Delaware.

**Dr. S. Fred Singer** is one of the most distinguished atmospheric physicists in the United States. He established and served as the first director of the U.S. Weather Satellite Service, now part of the National Oceanic and Atmospheric Administration (NOAA), and earned a U.S. Department of Commerce Gold Medal Award for his technical leadership. He is coauthor, with Dennis T. Avery, of *Unstoppable Global Warming Every 1,500 Years* (2007, second ed. 2008) and many other books. Dr. Singer served as professor of environmental sciences at the University of Virginia, Charlottesville (1971-94) and is founder of the nonprofit Science and Environmental Policy Project. He earned a Ph.D. in physics from Princeton University.
